(also referred to as "**Autogrill**" or the "**Company**") and of the group it heads (subholding companies/subsidiaries of the Company, also referred to as the "**Group**" or the "**Autogrill Group**"), as concerns the remuneration of:

1. members of the Board of Directors;
2. Executives with strategic responsibilities (including the Managing Directors), meaning persons with the power and responsibility, directly or indirectly, to plan, manage and control the Company's operations according to the definition provided in Annex 1 of the regulation issued by Consob with Resolution 17221 of 12 March 2010 (as amended) on the subject of related party transactions, namely those managers reporting directly to the Group Chief Executive Officer;

SECTION I
COMPANY POLICY ON REMUNERATION OF DIRECTORS, MANAGING DIRECTORS,
AND EXECUTIVES WITH STRATEGIC RESPONSIBILITIES;
PROCEDURE FOR THE ADOPTION AND IMPLEMENTATION OF THE POLICY

PREFACE

On 1 October 2013 the proportional partial demerger whereby Autogrill S.p.A. transferred the Travel Retail & Duty Free business to World Duty Free S.p.A.. came into effect. On the same date World Duty Free S.p.A. ordinary shares started trading on the Mercato Telematico Azionario (electronic stock market) organized and operated by Borsa Italiana S.p.A..

The separation of the corporate and organizational structures of the two businesses, Food & Beverage and Travel Retail, resulted in the following changes to the remuneration of the executives with strategic responsibilities and top managers:

- the exit from the Autogrill Group of an executive with strategic responsibilities (José Maria Palencia, CEO of World Duty Free S.p.A.);
- the long term incentive plans (L-LTIP 2010-2012 and SOP 2010) were adjusted to reflect the change in the respective companies' perimeter of participants.

More in detail, a few amendments were made to the long term incentive plans in place at the time of the demerger, in order to reflect the changed organizational and corporate structure, in compliance with the current regulations.

With regard to the "L-LTIP 2010 – 2012 – Sub-plan Wave 2" for 2012-2014: in accordance with the Regulations, the Board of Directors adjusted the KPI on the basis of the original figures of the "Multi-year Business Plan 2012-2016" presented on 15 December 2011. The original KPI "Cumulated Earnings Per Share (EPS) for the three-year period 2012-2014" was confirmed, albeit the target value has been restated, taking into account solely the perimeter of Autogrill S.p.A. for the portion related to 2014.

With regard to the Stock Option Plan 2010 (SOP 2010), the following amendments were approved during the Shareholders' meeting held on 6 June 2013:

- adjustment of the type of securities underlying the stock option attributed to the participants of the Plan, granting to them the rights to exercise the stock options – also severally and not jointly – to subscribe for, one ordinary share of Autogrill and one ordinary share of WDF for each vested stock option right;
- redefinition of the Final Value (see pg. 18), KPI to which the exercise of the WDF and Autogrill stock options is linked. The strike price is now defined as the sum of the arithmetical average of the official price of Autogrill and WDF ordinary shares in the period from the last day of the Vesting Period (20 April 2014) to the same day of the preceding third month (both included), increased by the dividends distributed from the Offer Date to the end of the Vesting Period;
- the extension of the Exercise period of the subscription rights – to the extent vested – until April 30, 2018.

1.6 Independent experts involved in drafting the Remuneration Policy

The Remuneration Policy has been developed without input from independent experts.

2. PRINCIPLES AND OBJECTIVES OF THE REMUNERATION POLICY

2.1 Foreword

The Remuneration Policy is one of the main instruments used to manage the remuneration systems of the Company and the Group, consistently with Autogrill's governance model, which the parent company's corporate units define in the context of orienting and coordinating the functions of the subholding companies/subsidiaries of the Autogrill Group. The Remuneration Policy is approved by the Board of Directors.

The Remuneration Policy has been developed in light of certain laws, regulations and self-regulatory standards that apply to Autogrill as a listed Italian company. Any adaptations proposed by the individual subholding companies/subsidiaries are in any case submitted to the Group's Human Resources Department, and also to the Committee if appropriate, for a non-binding opinion.

The parent company supervises the proper implementation and observance of the Remuneration Policy.

2.2 Principles and objectives of the Remuneration Policy

The remuneration policies and programs that the Autogrill Group follows for its executive Directors and Executives with strategic responsibilities ("**executives**") are designed in order to reach the following objectives:

- to meet the standards of a clear, transparent governance including also the reporting towards external parties;
- to be compliant with all applicable laws and regulations, in particular the rules issued by Consob, Recommendation 2009/385/EC of the European Commission, and the Corporate Governance Code;
- to make the Company and the Group competitive in the market in terms of overall remuneration for executives, in order to attract outstanding talent and retain such persons along with other key resources;
- to reward good performance, motivating executives to increase profitability and value for the shareholders by underlying the variable components of the remuneration packages while ensuring both a sustainable rewarding in front of the achievement of sustainable performance and that the remuneration of the management reflects the interests of the shareholders;
- to ensure fairness and integrity within the Company so as to recognize everyone's contribution to results and promote the motivation and development of individuals, by providing significant differences in compensation as a function of one's performance.

The basic principles of Autogrill's Remuneration Policy must:

- support Autogrill's business strategy;

- promote a high-performance culture;
- be consistent with Autogrill's values, in particular with the principles of sobriety that characterize the Group.

The components of the remuneration system are:

- **Fixed component (base salary):** remunerates executives on the basis of their positions, their performance over time, and their ability to "act the role" (managerial competencies and skills). It is defined on the basis of the positioning chosen towards the relevant labour market for positions of comparable responsibility and complexity. It is established upon hiring through comparison with market data for similar positions at companies of comparable size, and adjusted over time on the basis of competencies and skills acquired to reflect proven performance and new responsibilities, considering trends in the local labour market.
- **Variable component tied to performance:** a portion¹ of the overall remuneration package of executives consists of variable compensation tied to performance. The quantitative and qualitative target indicators chosen, such as KPI (key performance indicators), reflect the fundamental priorities of the Group's business in terms of results, management, customer service, development, etc..

This component of remuneration may also be paid in the form of equities or equity-based instruments, motivating even more the executives to create value for Autogrill and consequently its shares.

Variable component of the remuneration takes two forms:

- **short-term variable component (Annual Bonus Plan or "MBO")**, which rewards the achievement of short-term qualitative and quantitative targets consistent with long-term value creation, sustainable growth, risk management and a balanced mix of individual and team objectives;
- **long-term variable component (Long-Term Incentive Plan)**, which rewards the achievement of long-term quantitative and qualitative targets aimed at value creation and sustainable growth, in keeping with the interests of the shareholders and fostering the sustainability of the company results for all the stakeholders.
- **Other discretionary, occasional and non-recurring forms of remuneration:** discretionary and non-recurring bonuses and one-off payments designed in order to occasionally reward management significant results and/or performances with a relevant strategic impact, achieved through exceptional individual performances and not yet included neither in the short nor in the long-term variable component of the compensation packages. In relation to those managers having strategic responsibilities, the HR & Remuneration Committee will assess the relevance of their results and individual contributions.

¹ In compliance with Art. 6 of the Corporate Governance Code of Borsa Italiana S.p.A. and EU recommendations.

- **Fringe benefits:** supplement the pay packages of executives in keeping with local practice and in line with market trends.
- **Severance pay:** allowances applicable in case of early termination of employment.
- **Non-compete allowance:** allowances payable upon termination of employment to compensate for any non-compete agreement signed.

2.3 Changes in the Remuneration Policy with respect to the previous financial year

The Remuneration Policy, approved by the Board of Directors on 7 March 2013 and already submitted to the Annual Shareholders' meeting held in ordinary session on 6 June 2013, was further updated in 2013 with the involvement of the Human Resources Committee and approved by the Board of Directors on 14 October 2013, in order to include among the incentive schemes also the discretionary one-off bonuses payments. This amendment will be submitted to the ordinary Annual Shareholders' meeting for non-binding approval, along with this Report.

3. DESCRIPTION OF THE REMUNERATION POLICY WITH REGARD TO FIXED AND VARIABLE COMPONENTS AND THEIR WEIGHT AS A PERCENTAGE OF TOTAL REMUNERATION

The amount of all components of remuneration packages, and in particular of the variable components, is subject to financial compatibility standards and included in the budgeting/business planning process. The management of remuneration and incentive schemes for executives² is coordinated centrally and is uniform throughout the Group; at the lower levels, each business unit or country is responsible for application of the Group's Remuneration Policy.

3.1 Fixed component (Base Salary)

Upon hiring, the executive position weight is evaluated through methodologies that allow the comparison among positions, and consequently remuneration packages, with the labour market and with comparable positions inside the Group.

The same process applies to a change of position and/or responsibility for an executive already in service.

For a given position, merit increases apply only if performance is at least in line with expectations and the incumbent has demonstrated an ability to act the role; they are tied to the constant assessment of performance, as well as potential attrition and the critical level of the position.

The percentage range of an increase is assessed, for each of the Group's business units/regions, on the basis of executives' salary increase trends within the reference market by means of a study commissioned from specialized national and international experts and independent consultants (for 2013: Mercer and Towers Watson) by the Chief Executive Officer of Autogrill

² Also for top managers

S.p.A. and by the Group Human Resources and Organization Department, the results of which are shared with the Human Resources Committee.

Within that range, merit increases are decided by the Chief Executive Officer of Autogrill S.p.A. and by the Group Human Resources and Organization Department, after verifying the incumbent's performance, risk factors relating to the position, business priorities, etc..

Increases above the range must be justified and must also be approved by the Human Resources Committee.

Retroactive increases from the month of approval by the Human Resources Committee of the above-mentioned salary increase range are not allowed.

3.2 Variable component

3.2.1 Short-term variable component (MBO)

The short-term variable component aims to focus executives on the achievement of the priority objectives of the Group and the individual's business unit, by means of an Annual Bonus Plan.

The amount of the short-term variable component as a percentage of the remuneration package is determined on the basis of market practice and the extent to which the position contributes to Group results; it is expressed as a percentage range (from "target" to "maximum") of the annual base salary.

In light of the current labour market, therefore, and the level of responsibility of the position, objectives when achieved at target value will pay from 30% to 60% of the annual base salary, for a maximum of between 50% and 90%.

Changes in roles and responsibilities may require the application of a different percentage range.

In designing incentive schemes for the Internal Audit Director and the Executive responsible for financial reporting (Finance Director or CFO), close attention is paid to balancing qualitative targets and financial targets, in consideration of the roles those people cover.

As a general rule, executives are not given guaranteed bonuses that are not tied to measurable performance goals.

The scheme, the key performance indicators (KPI), as well as the corresponding targets are revised each year by the parent company's Chief Executive Officer with assistance from the Group Human Resources and Organization Department, evaluated by the Human Resources Committee, submitted for the approval of Autogrill S.p.A.'s Board of Directors, and notified to each subholding company/subsidiary.

For 2013, the financial objectives for Group-wide functions are Group Net Profit and Operating Cash Flow net of Group Capex; for the Business units they are Group Net Profit combined with Operating Cash Flow net of Business unit Capex; the relative bonuses will be halved if the half-year target for EBITDA-Capex is not reached and reduced to zero if the full-year target for EBITDA fails to be reached.

Strategic objectives for each single business unit which reflect the strategic priorities for 2013 were also introduced. These objectives were rendered measurable through the use of specific quantitative indicators, along with a clear and detailed description of the results expected.

The role/individual objectives that refer to each position are decided by the direct superior with the supervision of the Human Resources Department, which also verifies the general consistency of objectives among the different departments which must be measurable, at least in part.

In 2013, confirmation of the level of achievement of the objectives for a given year and payment of the corresponding bonus occurred in the subsequent year, subject to approval of the separate and consolidated financial statements by the parent company's Board of Directors and assessment by the incumbent's superior of the role objectives attained. The achievement of objectives by the Chief Executive Officer is assessed by the Board of Directors based on the recommendations of the Human Resources Committee. Payment of all the bonuses is subject to verification that all the conditions for the relevant bonus payment have been met (i.e., compliance with the gates, no disciplinary actions, etc.).

All bonuses must be "self-financed", i.e. both budgeted and entered as a cost item in the final accounts.

3.2.2 Long-term variable component (LTIP)

The long-term variable component aims to focus executives on goals that are sustainable over time, consistent with the interests of the shareholders and able to create value for all the stakeholders.

The amount of the long-term variable component as a percentage of the remuneration package is determined on the basis of market practice, the extent to which the position contributes to Group results, and the need to retain the best managers. Payment of a portion of the long-term incentive schemes is deferred with respect to the vesting date.

Long-term incentive schemes, the criteria for participant's identification as well as the list of participants are proposed to the Board of Directors by the Chief Executive Officer with assistance from the Group Human Resources and Organization Department, subject to the evaluation of Human Resources Committee and considering the Committee's input while the schemes are being developed.

There are currently two Long Term Incentive Schemes in place:

- New Leadership Team Long Term Incentive Program (New L-LTIP) 2010 – 2012;
- Stock Option Plan (SOP) 2010.

The Long Term Incentive Plans may have quantitative and qualitative Group objectives and they cover the span of more than one year. The KPI, targets, and their weights are proposed by the Chief Executive Officer when each plan is launched and are submitted for the approval of the Board of Directors, after consulting the Human Resources Committee. All incentives must be "self-financed", i.e. considered at both budget and actual levels in the relevant accounting items.

In 2013 none of the targets relative to the subplan Wave 1, which is part of the New Leadership Team Long Term Incentive Program (New L-LTIP 2010-2012) for the three-year period 2011-2013, were attained and, therefore, no payments were made.

The table on the next page shows the key characteristics of each plan and subplan currently in place.

3.2.3 Other discretionary, occasional and non-recurring forms of remuneration

These components include discretionary and non-recurring bonuses and one-off payments designed in order to occasionally reward significant management results and/or performances with a relevant strategic impact, not yet included neither in the short nor in the long-term variable component of the compensation packages, achieved through exceptional individual performances. In relation to those managers having strategic responsibilities, the HR & Remuneration Committee will assess the relevance of their results and individual contributions.

4. FRINGE BENEFIT POLICY

Any fringe benefits are also aimed at keeping the executive remuneration package competitive. They come in two categories:

- *perquisites*, i.e. supplementary pensions, life insurance, and health and accident insurance, which contribute to the executive's general welfare;
- *status benefits*, i.e. company car, housing, etc. whose main objective is to supplement the remuneration package with benefits in kind consistent with the executive's status and with market practice.

Other benefits may be given for particular assignments (e.g. for expats: housing, schooling, car, etc.).

Fringe benefits are offered consistently with market practice and Group policies (e.g. car policy, expat policy) and in accordance with current tax laws.

5. PERFORMANCE TARGETS ON WHICH VARIABLE COMPENSATION IS BASED

See sections 3.2.1, 3.2.2. and the corresponding table.

The objectives differ between the short- and long-term incentive schemes, reflecting the different roles and functions of those instruments.

With regard to 2013, short-term objectives pertain to the budget of the year, while long-term objectives to the multi-year business plan that is revised on a rolling basis. They are proposed by the Chief Executive Officer to the Human Resources Committee and the Board of Directors and are finalized in keeping with the business plan after consulting the Strategies and Investments Committee.

Short-term objectives thus also apply to positions below Executives with strategic responsibilities, on the basis of their ability to impact results; where necessary, they may take the form of sub-targets or indicators consistent with same.

6. CRITERIA USED TO EVALUATE PERFORMANCE OBJECTIVES FOR THE ALLOCATION OF SHARES, OPTIONS, OTHER FINANCIAL INSTRUMENTS, OR OTHER VARIABLE COMPONENTS OF REMUNERATION

Further to verification by the Human Resources Committee, the Board of Directors is responsible for evaluating the achievement of the financial objectives set in the incentive schemes. That role also extends to the evaluation of the role objectives assigned to the Chief Executive Officer. The objectives of the Internal Audit Director are evaluated jointly by the Chief Executive Officer, the Chairman of the Control and Risks Committee, the Chairman of the Board of Statutory Auditors, and the Human Resources Committee.

7. CONSISTENCY OF THE REMUNERATION POLICY WITH THE COMPANY'S LONG-TERM INTERESTS (AND WITH THE RISK MANAGEMENT POLICY)

The Retribution Policy aims to motivate executives to increase value for the shareholders and, more generally, for the long-term stakeholders and is based on principles of fairness and

integrity, with the ultimate goal of ensuring the economic and social sustainability of the Company and its management.

8. VESTING PERIOD FOR DEFERRED PAYMENT SYSTEMS

See section 3.2.2. Satisfaction of the financial covenants is a condition for unlocking acquired rights. There are no claw-back mechanisms in force.

9. OBLIGATION TO RETAIN FINANCIAL INSTRUMENTS ONCE THEY ARE ACQUIRED (MINIMUM HOLDING)

The Chief Executive Officer must hold 20% of any shares accrued until the end of the term of office.

10. POLICY IN THE EVENT OF TERMINATION FROM OFFICE OR EMPLOYMENT; NON-COMPETE CLAUSES

In principle, Autogrill does not offer termination allowances or similar benefits that exceed the amount legally applicable to the individual executive by virtue of laws and/or collective bargaining contracts. If the law is silent on the matter, termination allowances, in addition to the notice period, must not exceed 24 months' total compensation (base salary + MBO + LTIP). "Golden parachute" and "change of control" clauses must likewise be avoided.

Termination agreements are drawn up in light of the applicable benchmarks and within the limits indicated by the case-law and standard practice of the country in which the agreement is made. As a rule, the Group does not enter into agreements that regulate *ex ante* the early termination of employment at the Company's or the individual's initiative, without prejudice to the provisions of law and/or national contracts.

Any different agreements must be validated by the Human Resources Committee.

In accordance with case-law and standard practice, "non-compete" clauses may be considered, entailing payment of an allowance in the form of a percentage of the base salary or an independently determined amount reflecting the duration and scope of the agreement. The non-compete clause pertains only to the business sector served by the Group, with a geographical extent and duration depending on the employee's position.

Non-compete clauses have the following key characteristics:

- pre-established duration;
- defined geographical scope;
- relevant business.

Compensation for the non-compete agreement must not exceed the equivalent of six months' annual base salary, to be paid in quarterly instalments throughout the duration of the agreement, which shall not be less than 18 months.

There are currently "pre-negotiated" termination benefits applicable to the Group's Chief Executive Officer and the CEO North America. Non-compete agreements are in place for all executives.

11. INSURANCE, SOCIAL SECURITY OR PENSION POLICIES OTHER THAN OBLIGATORY COVERAGE

In line with best practices, a D&O (Directors & Officers) Liability policy has been taken out for the Directors, Statutory Auditors, Managing Directors, Executives with strategic responsibilities, senior managers and executives, covering any civil liability damages caused by them during the performance of their duties (except in the case of malice or gross negligence).

Autogrill S.p.A.'s Executives with strategic responsibilities, in accordance with the national collective bargaining agreement, are covered for accidents (on and off the job), death, and permanent disability due to illness; they also have supplementary health insurance in addition to that mandated by the collective bargaining agreement.

12. REMUNERATION POLICY WITH RESPECT TO INDEPENDENT DIRECTORS, THE PARTICIPATION OF DIRECTORS ON COMMITTEES, AND THE HOLDING OF SPECIAL OFFICES

Within the Board of Directors there are:

- Directors holding special offices, who may also be invested with specific powers;
- Directors not holding special offices.

At 31 December 2013 the situation was as follows:

- Directors holding special offices: The Chairman of the Board of Directors, Gilberto Benetton, and the Chief Executive Officer, Gianmario Tondato da Ruos;
- Directors not holding special offices: Tommaso Barracco, Alessandro Benetton, Arnaldo Camuffo, Carolyn Dittmeier, Marco Jesi, Alfredo Malguzzi, Marco Mangiagalli, Gianni Mion, Stefano Orlando, Paolo Roverato, Massimo Fasanella D'Amore di Ruffano.

The Directors are entitled to: a "base" fee for serving on the Board of Directors plus a fixed amount for each Board meeting and shareholders' meeting attended ("attendance fee"), as well as reimbursement of expenses incurred for official business.

Additional annual compensation is due to those who serve on the committees formed within the Board of Directors, also in accordance with the Corporate Governance Code (namely the committees for [i] Internal Control and Corporate Governance [ii] Human Resources and [iii] Strategies and Investments).

13. REMUNERATION POLICIES OF OTHER COMPANIES USED AS BENCHMARKS AND CRITERIA USED TO SELECT THOSE COMPANIES

The Group's Remuneration Policy has been defined using the remuneration policies of other companies as benchmarks. The companies chosen are multinational and Italian firms operating in the consumer goods industry whose complexity, distribution intensity, and investments are comparable to those of Autogrill.

SECTION II
ITEMS COMPRISING REMUNERATION PACKAGES AND REMUNERATION PAID
DURING THE YEAR

1. ITEMS COMPRISING REMUNERATION PACKAGES

1.1 Introduction

The items of remuneration reported in this section 1 were determined, for 2013, on the same basis as in previous years and according to the principles followed by the Company and agreed with the Human Resources Committee concerning the definition of the remuneration packages of the Chief Executive Officer, Managing Directors and Executives with strategic responsibilities. Those principles were already in line with the recommendations of the Corporate Governance Code.

1.2 Board of Directors, Board of Statutory Auditors and Managing Directors

- (a) Each Director, including the Chairman of the Board of Directors, received: (i) the "base" fee of €50,000 for serving on the Board; (ii) an attendance fee of €600 per Board meeting or shareholders' meeting attended.
- (b) The members of the Internal Control and Corporate governance Committee, the Human Resources Committee, and the Strategies and Investments Committee receive an additional annual fee of €30,000, plus €600 for every meeting of those committees attended.
- (c) Members of the Related Party Transactions Committee receive no additional annual fee, but they do receive €600 for every meeting of that committee attended.
- (d) Except for the Chief Executive Officer, the members of the Board of Directors and of the Board of Statutory Auditors are not included in incentive plans tied to company performance, whether cash- or equity-based.
- (e) The Directors are also entitled to the reimbursement of expenses incurred for official business, and to D&O (Directors and Officers) Liability insurance.
- (f) The Statutory Auditors are entitled to the fees defined on a flat-rate basis upon their appointment.

1.3 Other Executives with strategic responsibilities

Consistently with the Remuneration Policy described in Section 1 (parts 2, 3 and 4), the remuneration of Executives with strategic responsibilities is comprised of:

- Fixed component (base salary)
- Variable components tied to performance:
 - MBO 2013 (short-term bonus)
 - New L-LTIP 2010-2012 (long-term incentive plan)
 - SOP 2010 (long-term incentive plan)
- Other discretionary, occasional and non-recurring forms of remuneration
- Fringe benefits (see Section 1, parts 4 and 11 and Section 2, part 2.2)

1.4 Share-based incentive plans

For detailed information on the share-based incentive plans approved by the Company, see the remuneration plans approved by the Shareholders' meeting pursuant to Art. 114-bis TUF and the corresponding disclosure document, published in the Governance section of the Company's website (www.autogrill.com).

1.5 Allowances in the event of termination from office or employment

1.5.1 Board of Directors and Managing Directors

As regards allowances paid to Directors in the event of resignation, dismissal or termination following a public acquisition offer, the contract between the Chief Executive Officer and the Company states that if the CEO resigns with cause or is dismissed by the Company without cause, the Company must top up the standard allowance in lieu of notice (provided for in the national collective managers' contract for the commercial sector) with a further indemnity such that the total amount is no less than €2 million.

The CEO shall, in any event of discontinuation of office and powers, retain the right to variable compensation under the incentive plans of which he is a participant, subject to the achievement of the targets and the satisfaction of any other condition stated in each plan or program and in an amount proportional to the service rendered during the relevant period of time.

1.5.2 Other Executives with strategic responsibilities

In the case of Executives with strategic responsibilities, all rights acquired under incentive plans (including stock options) are forfeited in the event of termination for cause, subjective justified cause, or voluntary resignation ("bad leavers"). In the event of termination for objective justified cause or retirement ("good leavers"), the participant is entitled to remain in the incentive plans on a pro-rata basis.

In the event of termination for objective justified cause ("for cause"), the contracts of an Executive with strategic responsibilities at subsidiary provides for an allowance not exceeding two years' total remuneration (base salary + MBO + LTIP), calculated as fixed compensation plus the average individual incentives paid over the past two years.

For further details, see the documents and regulations published in the Governance section at www.autogrill.com.

 - for 3 of them, the Board of Directors approved payment of a discretionary, one-off bonus (payable in March 2014), for the contribution made to value creation in the period 2007-2013 relating to strategic finance, the integration of Food & Beverage and Travel Retail & Duty Free and their growth .

For further details of compensation paid, see the tables reported below.

There are no Executives with strategic responsibilities who in 2013 received total compensation (cash- and share-based) exceeding the highest total compensation paid to the officers covered by section 2.1 above. Information on the compensation paid to Executives with strategic responsibilities during the year is therefore provided on an aggregate basis.

(a) SOP 2010 = Stock Option Plan 2010, as amended by Shareholders' meeting held on 6 June 2013. On the approved amendments see Preface on page 7 and the table on page 18. More in detail, each Autogrill Option originally allocated entitles the Participant to underwrite, also separately, one (1) Autogrill share and one (1) WDF share on the terms and conditions set by the Regulations.

(b) As voted by Shareholders' meeting held on 6 June 2013 the Exercise price has been distributed through a proportional division between Autogrill and WDF Share, on the basis of the arithmetical average of the official price of Autogrill and WDF ordinary shares for each day on which they are quoted on the relevant online share market in the first 30 day-period from the date of the first quotation of WDF S.p.A., as follows: $\frac{9,34€}{2} = 4,17€$ per Autogrill + $5,17€$ per WDF / $\frac{8,91€}{2} = 3,98€$ per Autogrill + $4,93€$ per WDF / $\frac{8,19€}{2} = 3,66€$ per Autogrill + $4,53€$ per WDF.

- (c) The fair value is calculated using the binomial method.
- (d) The indicated Fair values have been affected by the recalculation made necessary by the demerger, as well as by the remaining Vesting period and by the modification of the Exercise period.
